Letter of the Manager of the CME

2012 in the Lutheran Church in Poland was called THE YEAR OF NEW CHALLENGES. It ended several years dedicated to different aspects of life in Church: mission and evangelism, social welfare, liturgy and music, family, Christian upbringing, youth and counseling. We asked ourselves: “How can these above-mentioned aspects of life in the Church help the people meet contemporary challenges?”

When we talked about new challenges we meet as Christians and as mankind in general, we did not mean they are not known to us but today they come in a new form and in new time. We determined the most important challenges of the world:

1. Search for new sources of energy.
2. War against terrorism.
3. Uneven population and access to resources.
4. Economic crisis.
5. Multiculturalism of societies (pluralization).

Facing these challenges we asked ourselves a question what can we do as ordinary people, members of a small Church in Poland. The Bible motto for 2012 was: “[Jesus says:] my power is made perfect in weakness” (2 Corinthians 12,9 NIV) and it was the driving force to involvement in spite of the fact that our possibilities were not too big.

In 2012 activities of the CME were focused on care about people and their environment.

Selected topics:

- Energy efficiency and own resources (time and skills), saving energy and sorting garbage
- Promoting reconciliation between people and nations, the ability to deal with conflict
- Commitment to helping those in difficult situation, care for emigrants and immigrants as well as assistance to other countries.

The most important task was teaching Christians how to live in pluralist society without phobia. How to testify without “going on war” with different-minded people. How to show respect, love and care for people of different race, religion, social status, gender and sexual orientation while remaining at own values.

We have implemented a new graphic sign: Luther rose combined with a catchphrase “2012 the year of new challenges”. This project was handed over for use in Church on different media, we placed it also in our publicity materials. During the whole year we used also two other catchphrases promoting them at the same time: “People are God’s method” and “For the enhancement of life quality.”

Rev. Grzegorz Giemza

Activity

Just as yeast – that is a little of history

Conversation with Rev. Jerzy Samiec, bishop of Evangelical Church of the Augsburg Confession in Poland

What is the role of CME in life of the Church?

I think the reality surpassed our expectations when we appointed CME. That is the way it is: we often hear complaints but probably no one can imagine the existence of our Church without CME. The Center is essential to its proper functioning. It is like leaven – it causes “fermentation”, moves, but without it you would not bake bread. The Center is like yeast – it gives growth.

Do you see the necessity for change in the activity of CME?

I think after time of rapid growth time for stabilization has come. During the years CME developed its activity in several directions. I cannot list them all. Anyone interested is requested to visit the website. Almost every initiative was related to creating something new from scratch or with thorough reconstruction of already existing form. It seems to me, time for mature stabilization for CME has come.

Which activity of CME is innovative?

All of them! Activities of CME have always been modern, moved with the times. I believe they are a true avant-garde in the Church.

Three directions of activity:

1 Inwards

We are aware of our identity and tradition; presenting them is enhancing missionary possibilities of the Universal Church and not its limitation, especially in post-modern era. This approach allows people of different beliefs to involve in CME and involve CME in various communities, although it is addressed particularly to members and supporters of the Evangelical-Augsburg Church in Poland.

2 Outside

CME is not focused only inwards but motivates Christians to “go out” and meet needy halfway and involve in their own environment especially for the benefit of those who are in difficult (critical) situation.

3 Beyond own culture

That is mission understood as “intercultural testimony of faith expressed by love to the neighbors regardless of their race, culture, tradition and faith”. This testimony requires respect for the others, therefore the activities of CME off-site its seat are always carried out in cooperation with local partners (parishes, organizations, etc.).

Scopes:

educational, charitable, cultural and social, that is:

- Training, educating and promoting volunteering
- Organizing meetings, conferences and evangelistic events
- Supporting charitable and social welfare works
- Carrying out publishing and media activities
- Supporting creation of new groups, churches and parishes

All activities of the Center (meetings, conferences, camps) are the support for year-round work and of themselves are the part of long-term process. From the very beginning CME combines large mass events with meetings with individuals not forgetting their everyday problems.

Activities and Projects in 2012

Street pedagogy

“Feel your oats” – Silesian culinary workshops / 1st Sept. 2011-29th Feb. 2012

The aim of this project was to reduce undernourishment among children socially deprived and on the other hand encouraging them to get to know the history and traditions of the region where these children live. During the project participants learned to prepare easy and inexpensive meals which they could take home to offer their loved ones.

The branch is formed by four-persons Group of Street Pedagogues UNO, offering multidimensional support to children, teenagers and their parents.

For three years we offered support to about 70 children and teenagers. /Bytom-Bobrek

“Mobile School” / 1st June 2012-31st Dec. 2012

This project was about regular streetworkers' watches in Bobrek district using a special educational cart. Street educators carried out animation and circus activities, games for various age groups. Aim of this project was to reduce destructive behavior of children and teenagers by their participation in interesting outside activities; and in the result increase of self-esteem of young people spending their free time in the streets. Within the project in July a training called “Volunteers for Bobrek” was organized aiming to prepare volunteers to environmental work with children and teenagers.

"I would never think the Bible School can change me so much. People around, called students, caused that the coffee breaks were not breaks because mostly we discussed the lectures. Despite the tiredness after many hours of intense work on the God's Word I always felt unsatisfied. I was not an ordinary school for me, but God's School."

Kasia, graduate

"I am very happy I attended the Elementary Counseling Course. It was very important time for me: getting to know myself better, deepening relationships with other participants. I was able to develop the skill to communicate with people around me and especially with people who want to get to know me more and whom I can accompany in their life experiences. Gained skills help me every day in my ministry."

Łukasz, graduate of the Elementary Counseling Course

Funds

Family for the Family

In 2012 we supported nine families with total amount of 2700 PLN per month. In the middle of 2012 we took a decision to support a family raising seven children from Silesia. It is not our record, while for the last several years we have supported a family of eleven persons from central Poland. The oldest are finishing their studies and the situation of this family should improve soon. That happened in case of one family from Mazury. We helped them since the mother died, after a year the father died too and the four children were taken care by the oldest adult sister. This year the family became financially independent according to information given by their local pastor. Unfortunately, in few instances we decided to refuse to help. It concerns among others families from district of Bytom, Bobrek whose children (teenagers) are in the charge of our street educators. Several times we supported these families with single or few months subsidy but we cannot afford regular help. In the end of the year we had to make a difficult decision to limit the monthly subsidy for our eight regularly supported families – from 300 to 200 PLN, because the receipts to the account “Family for the Family” diminished. The fund is coordinated by 5-persons committee.

Give hope to children

Thanks to this fund we raise resources for partial funding to cover the costs of holiday for children and teenagers from families in crisis situation and from children’s home. In 2012 we could fund camps for 43 children who during the summer holidays were sent to: Ukta, Dziegielów, Lidzbark Welski, Wisła Jawornik, Szczecin, Istebna, Czarna Góra, Wołczyn, Niedzica.

Help for Africa

In 2012 within the fund we organized a stand with handicrafts, arts workshops and a presentation about activities in Burkina Faso. Committee for financial support of projects “Help for Africa” donated 1150 EUR for extra meals to inhabitants of Pobe Mengao villages and for purchase of local handicrafts. In the end of the year a coordinator of the activities for Burkina Faso has changed – Lidia Żur, our volunteer became a new one.

1000x1000

This fund was created in 2007 to raise funds amounting to 1 000 000 PLN to allow a safe start of extending CME. Within this fund there was prepared a design of the building including constructing garages and extending the building of CME. Thanks to the extending there will be new lecture rooms, radio studio, library and extended dining room which will allow to develop the educational activities within the Center of Volunteers’ Training. Until now thanks to a sponsor we were able to build a sewage treatment plant.

Preventive workshops “A New Lifestyle – without alcohol”

The main aim of this project was promoting abstinence attitude and preventing addiction among teenagers and promoting healthy lifestyle by identifying other possibilities and alternatives to problem solving as well as leisure activities. In 2012 there were workshops in three secondary schools in Jastrzębie Zdrój and Wisła and it included 540 first grade students, at a rate of 9 study hours.

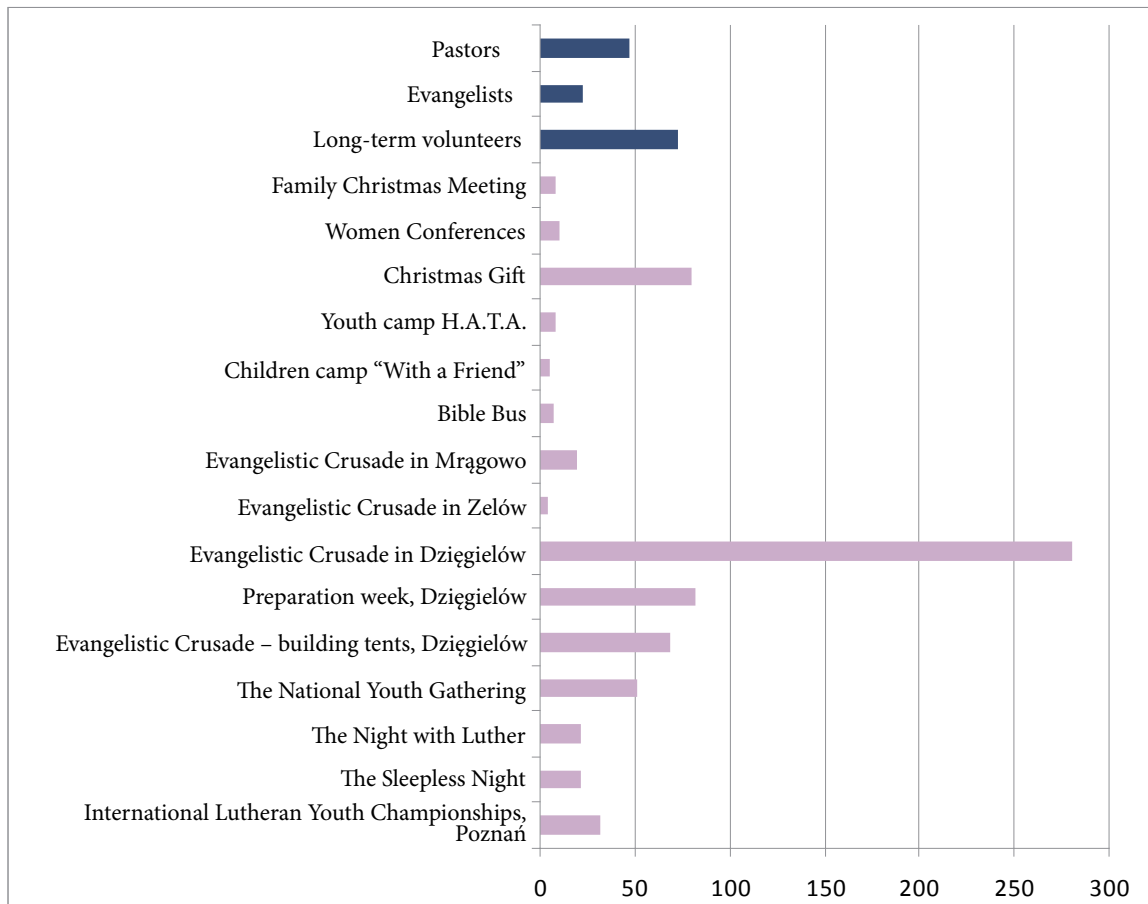

Artistic Groups

During the whole year also three formations were acting: Artistic Group of Clowns who met 37 times different audiences and they could be seen by 3122 viewers; Music Group CME who gave five concerts and led common singing during Evangelistic Crusades and also newly created at the beginning of 2012 Duo SU with their original drama étude.

These groups participated among others in projects such as: “Forgiveness” Women Conference, Lent retreats for children from primary and secondary schools, AGC Meeting, Clowning Workshops, 4th Festival of Protestant Culture, Concert during Youth Conference, Visiting children at Pediatric Ward and Pediatric Surgery Unit, Parish Picnics, Holiday Farewell Parties with Book and Sport, Family Meeting on a Ski slope, Holiday of residents of Bobrek, Children Book promotions etc.

Volunteering

In 2012 we placed volunteers in the center of activities of CME. Apart from support, conversation and constant contact with volunteers we spent a lot of time on monitoring their activities. These relations next to reporting and control functions allow us to build the atmosphere of trust and openness.

One-off volunteers that is short-term as well as long-term volunteers participated and served on 14 events organized by the Center. Long-term volunteering agreements were signed with 73 persons and 23 evangelists, 47 Lutheran pastors and one Methodist pastor. Cooperation with CME finished 8 persons.

All volunteers, that is about 500 persons, and other persons cooperating in other forms, including pastors and strategic sponsors, that is 121 persons, were invited to annual New Year meeting summarizing the year of activity and giving thanks for cooperation and support.

„Volunteering for me is gaining experience and skills, so that I can develop, I can work on myself and at the same time learn to work with others.”

Radio program „Simply” 365 days in a year

The program is created in cooperation with Evangelical-Augsburg Parish in Gliwice and was broadcast every day from 9 p.m. till 9.30 p.m. in the radio CCM and via Internet. In 2012 the editorial office cooperated with volunteers such as: Lutheran pastors, actors and narrators and a composer-arranger. Selected materials were handed to Polish Radio Programs 1 and 2, Radio Opole, Radio Koszalin, Opoka.fm, etc.

Daily we broadcast Bible studies. Due to the Decade of Reformation interviews about for example principles of Lutheranism were produced; due to the year of new challenges a few programs concerning ecology as well as family-oriented programs from the series “I am at home” were produced. Also we recorded several interviews with persons who shared their experiences and by doing so we showed life of Church people (pastors and missionaries), activities of Christian culture creators, people involved in different mission and charity projects. We also produced several documentaries and relations describing courses of important anniversaries, Church celebrations, evangelism, mission and charity activities including activities of CME. This way we portrayed the picture of Church life in the past and today.

As usual all that's well ends quick! Due to memories, which are all that's left, I would like to thank you once again for the "Camp with a Friend". In the eyes of my daughter these were the best ten days of her holiday – full of excitement, games and Bible stories! I am very happy Kasia could participate in this camp. Today she already says next year she wants to go again.
